Special Math Seminars For Seniors

The Kellenberg Math Department is pleased to offer a special seminar for seniors who are completing their senior year mathematics course.

The Senior Statistics Seminar

Many college programs require the extensive use of mathematical and statistical concepts without needing the study of calculus. This seminar is for students whose college math programs will require advanced algebraic topics, and especially statistical techniques, including data and regression analysis. During the seminar, extensive class time will be devoted to the many statistical features of a graphing calculator.

Key Facts – 2018 Statistics Seminar

- 🕒 6 Sessions, Mondays and Wednesdays, May 21st, May 23rd, May 30th, June 6th, June 11th, June 13th
- 🕒 Meeting times: 9:00 AM – 12:00 PM 🕒 Mr. Casalnuovo, Instructor
