

# Introduction to Economics

This course will equip students with fundamental economic knowledge as they transition to college or the workforce. By developing an understanding of the history of economics as well as an introduction to the basics of microeconomics (economic behaviors of individuals) and macroeconomics (national or global economics), students will gain a broader perspective on the role of economics in shaping society. Through discussions and practical activities, students will gain confidence in navigating economic challenges and opportunities that they may encounter in their lives.

## Key Facts – 2024 Economics Seminar
